

Setting Alerts in EventLog Audit Professional

One of the key features of EMCO EventLog Audit Professional is its ability to send Email alerts. This document guides you on configuring Email alerts in ELA Pro.

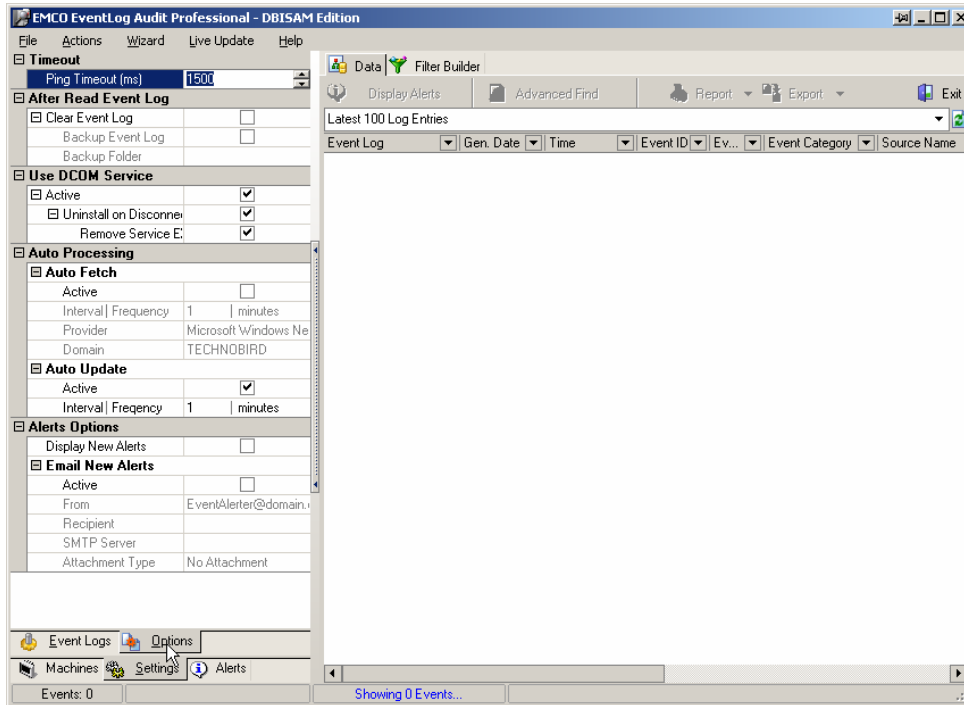

To configure email alerts:

To configure email alerts perform the following steps:

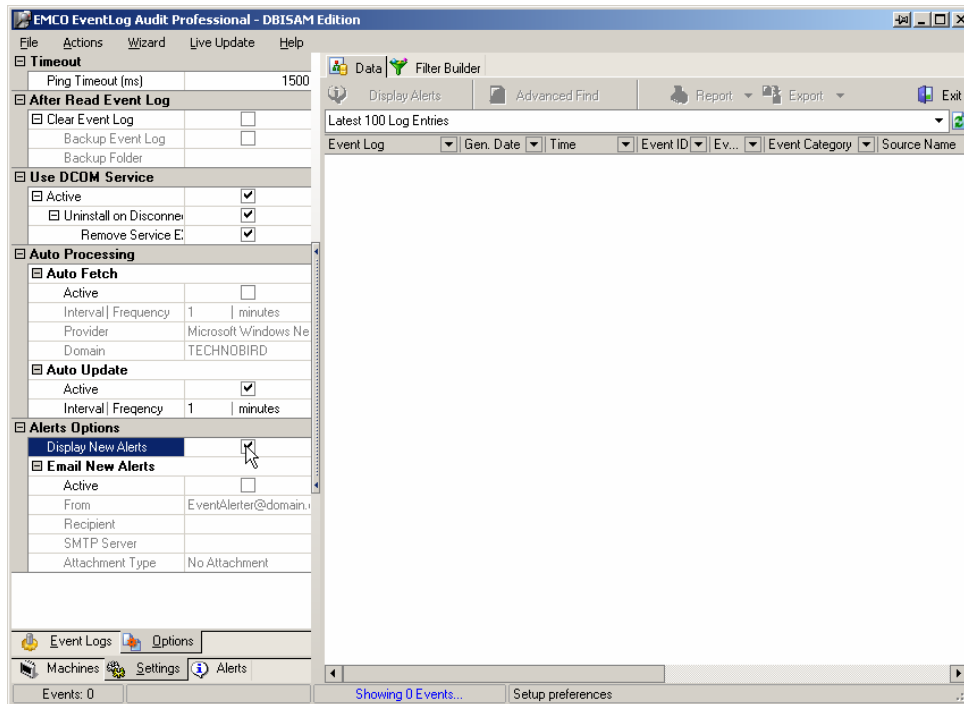

1. Switch to **Settings** Tab.

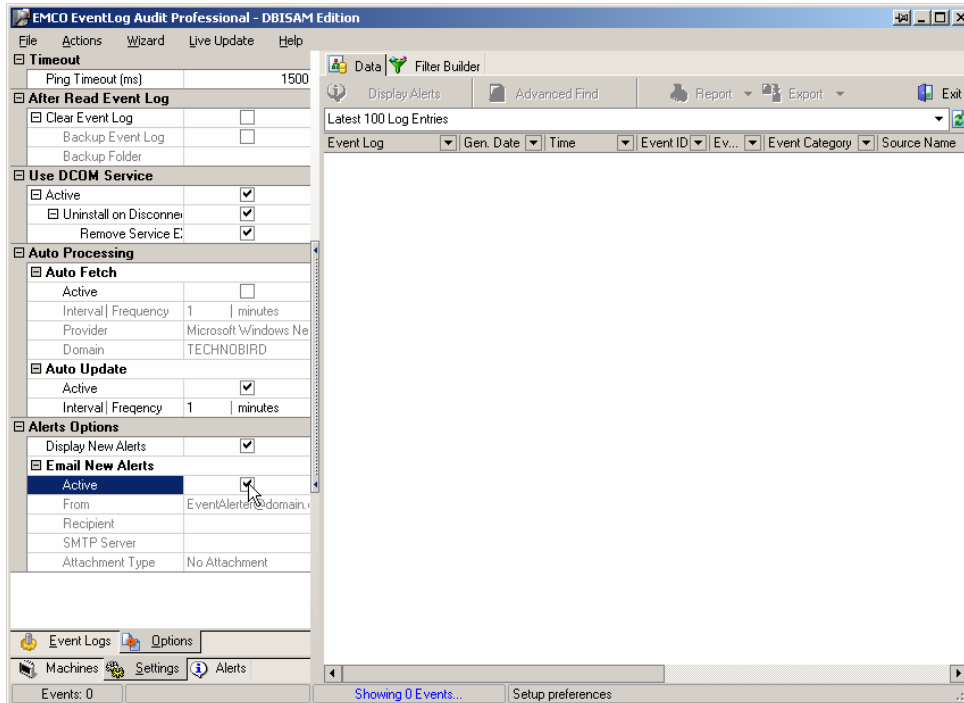

2. Now switch to **Options** sub Tab under **Settings** Tab.

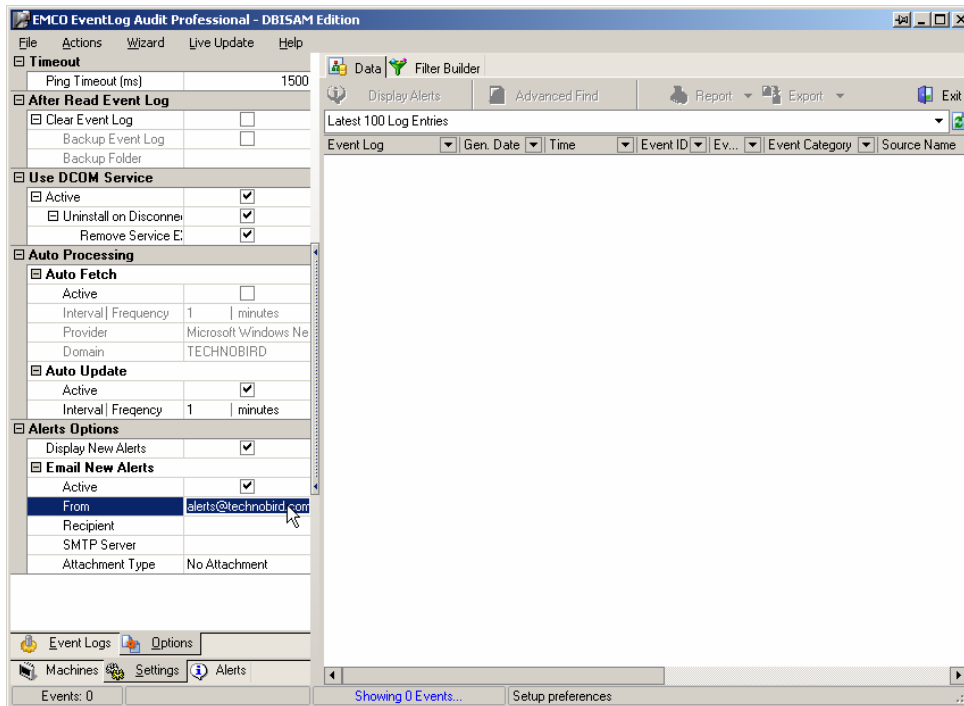

3. To display new alerts check the **Display new alerts** checkbox.

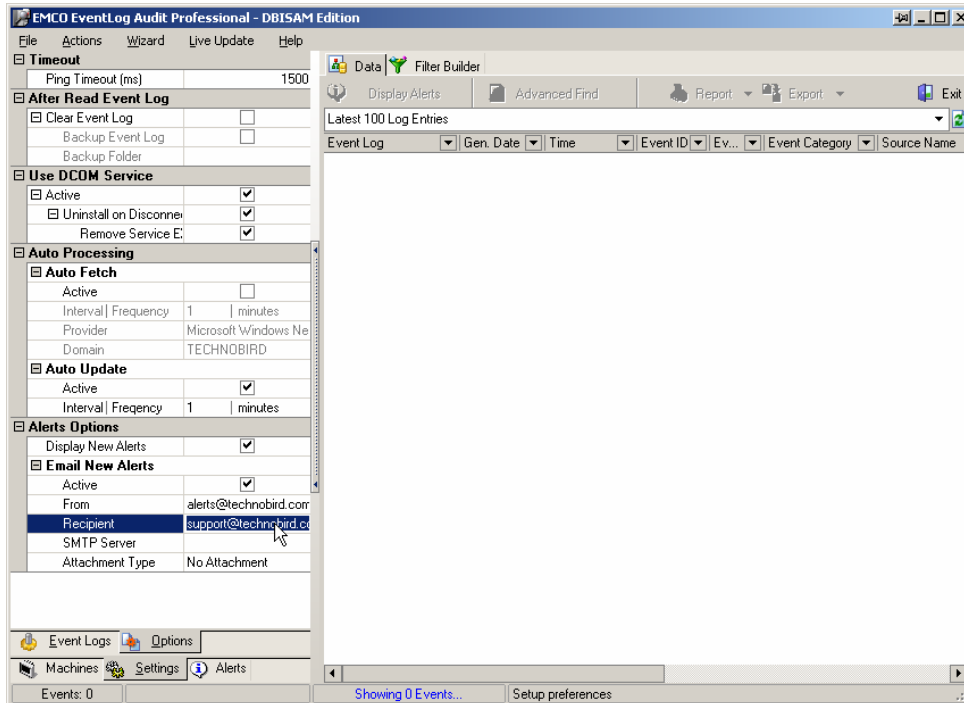

- To enable email alerts check the **Active** item under **Email alerts**.

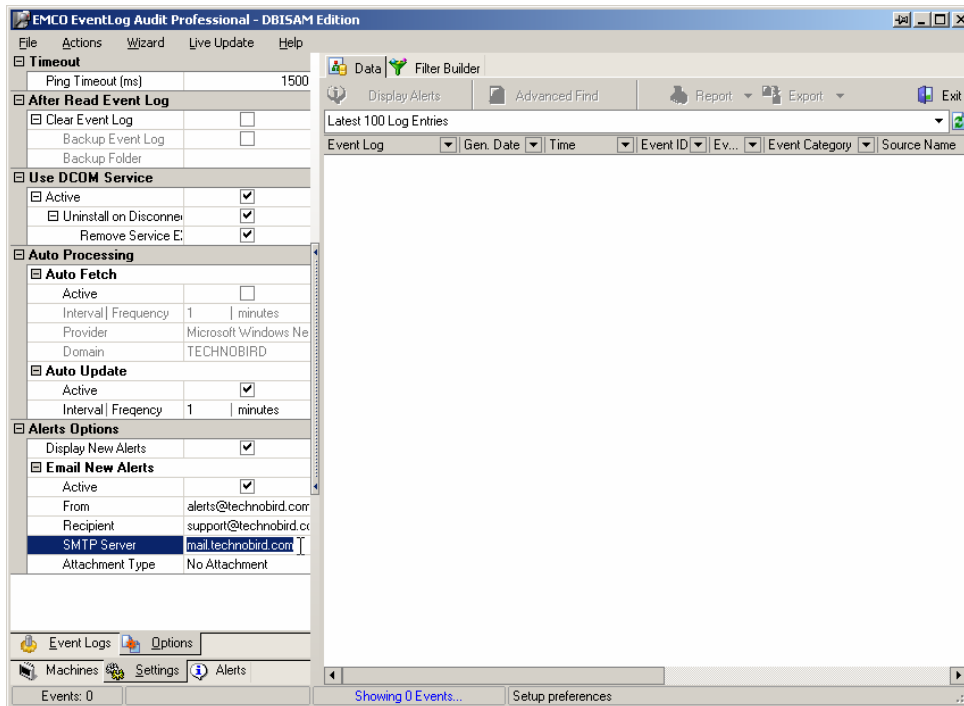

- Type in the sender email address in the **From** textbox.

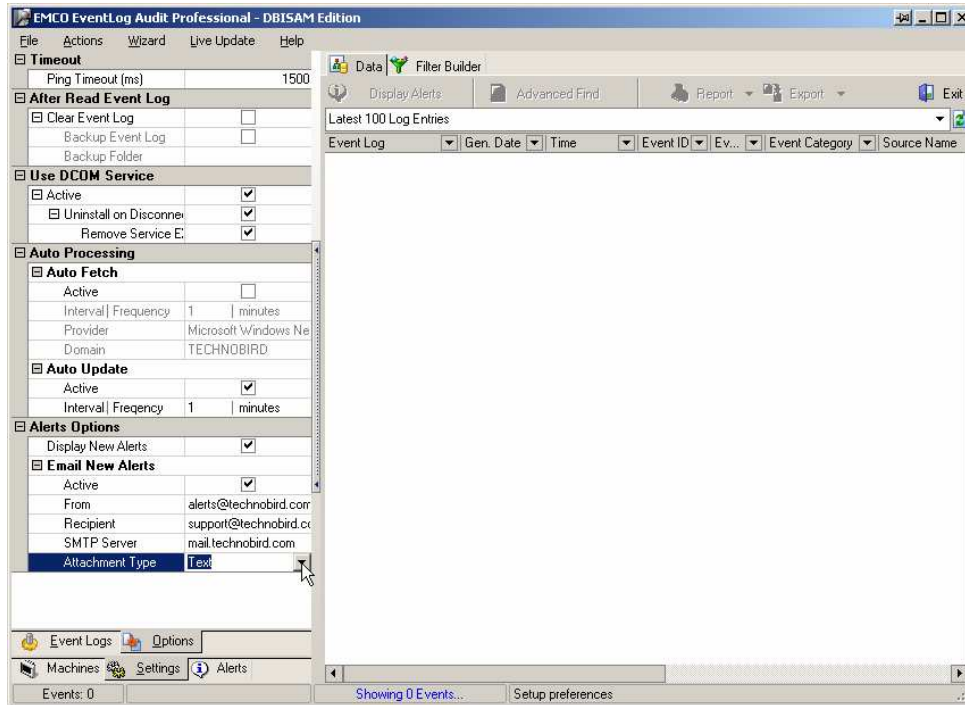

- Type in the recipient email address in the **Recipient** textbox.

- Type in the SMTP server addresses in the corresponding textbox.

- Select the attachment type from the **Attachment Type** dropdown list.

- You have now successfully configured the **Email Alerts** for ELA Pro.
