

## Installing Flash Player 7.x in Remote Administration 3.0

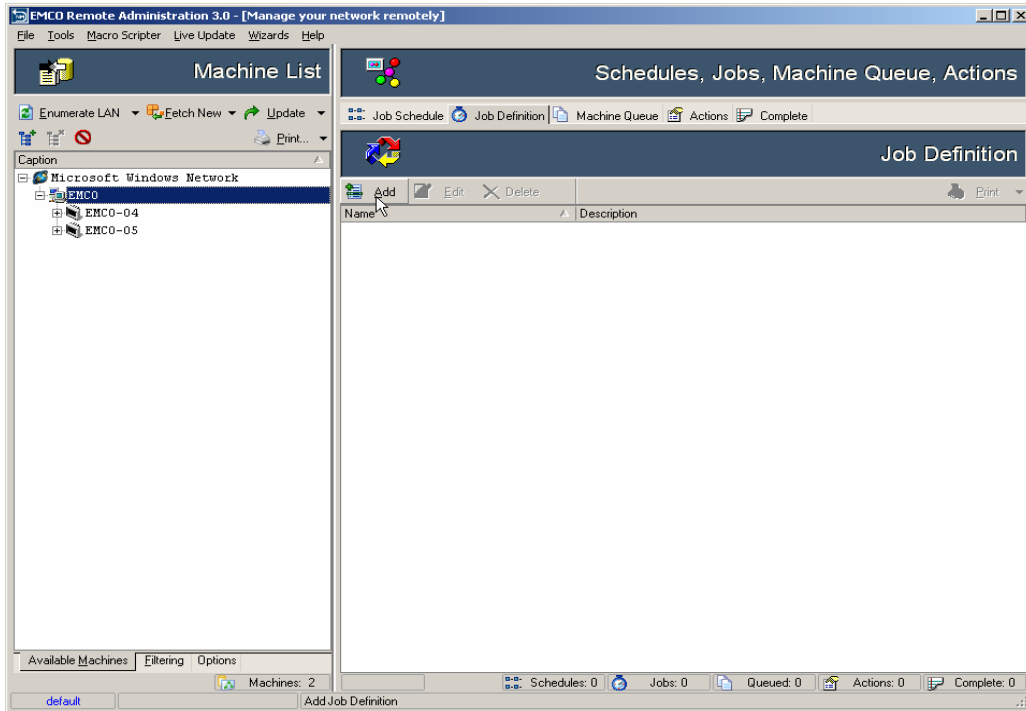

### To Install Flash Player 7.x:

To install Flash Player 7.x on remote machine(s) in EMCO Remote Administration 3.0 perform the following steps:

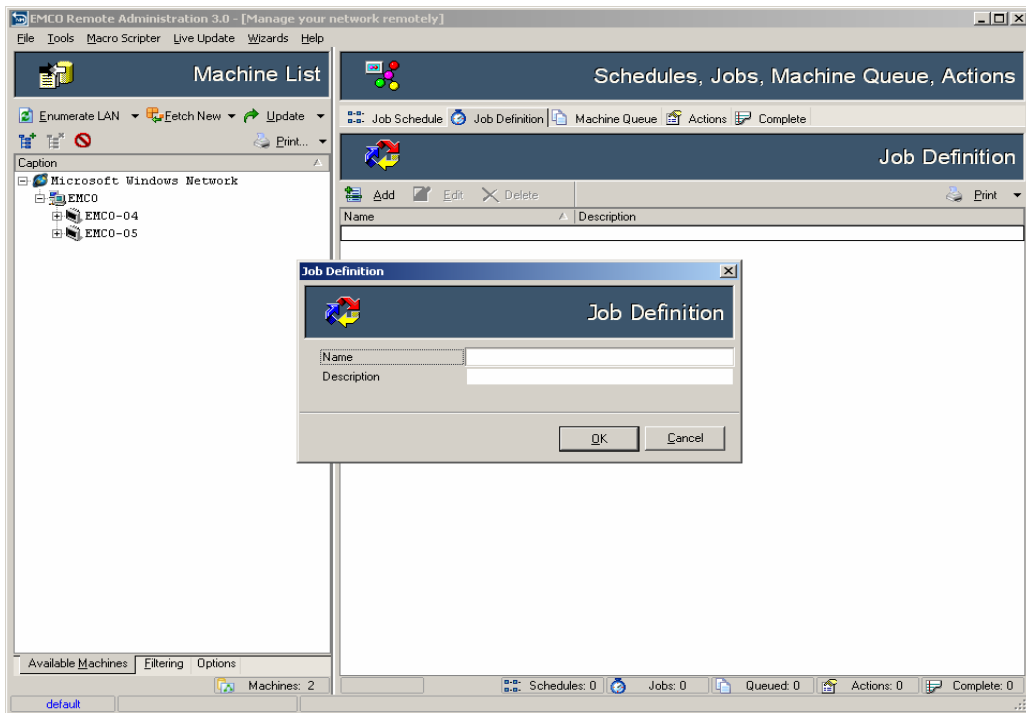

1. Download the latest version of Flash Player 7.x from the download section at Macromedia website.
2. Run EMCO Remote Administration 3.0.
3. Switch to the **Job Definition Tab**.

4. Click **Add** button to add a new job.

5. **Job Definition** dialog box will appear on the screen.

- Type in the name of the job in the **Name** textbox.

The screenshot shows a dialog box titled "Job Definition" with a close button (X) in the top right corner. Below the title bar is a header area with a circular arrow icon and the text "Job Definition". The main area contains two text input fields: "Name" and "Description". The "Name" field is active and contains the text "Install Flash Player 7.x". The "Description" field is empty. At the bottom right, there are two buttons: "OK" and "Cancel".

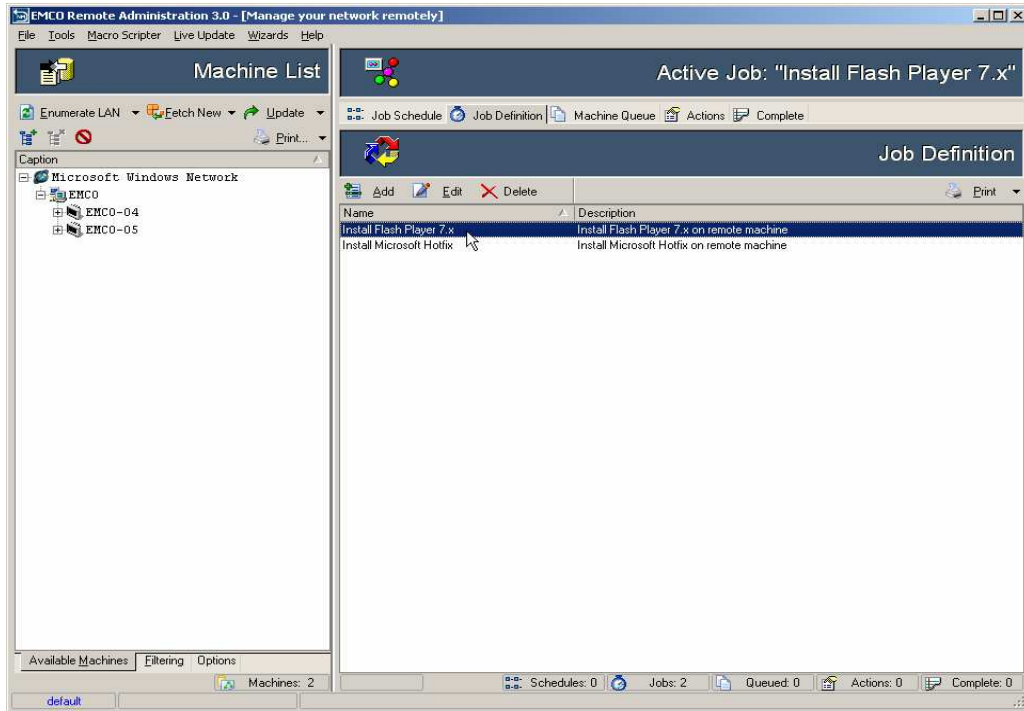

- Type in the description of the job in the **Description** textbox.

The screenshot shows the same "Job Definition" dialog box. The "Name" field now contains "Install Flash Player 7.x" and the "Description" field contains "Install Flash Player 7.x on remote machine". The "OK" and "Cancel" buttons remain at the bottom right.

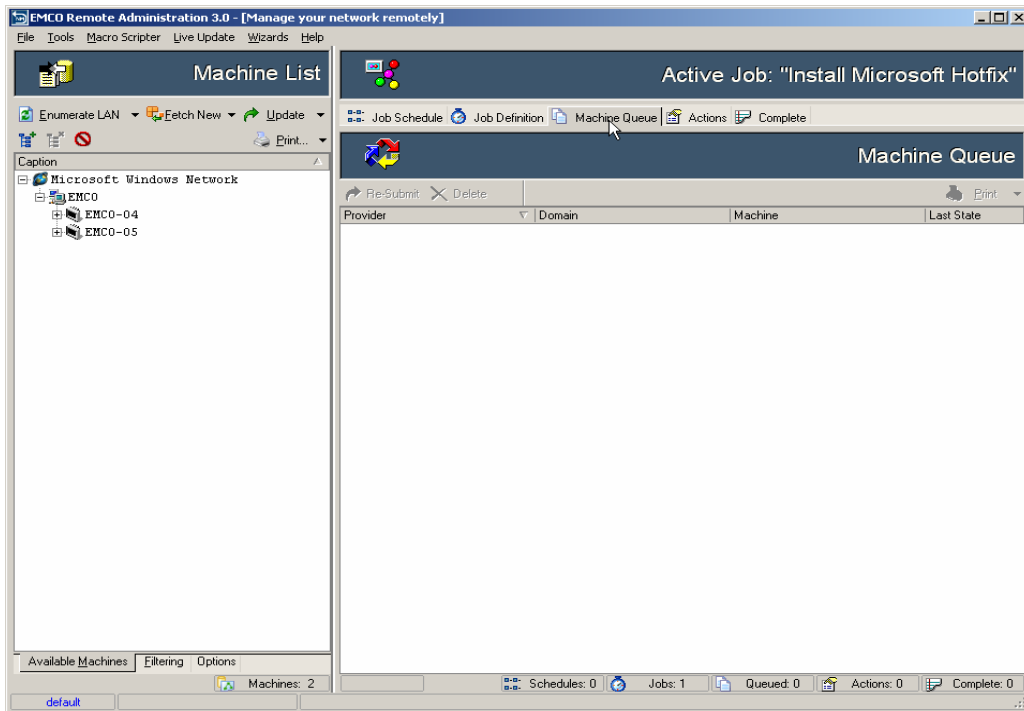

- Click **Ok** button to add the job.

The screenshot shows the "Job Definition" dialog box with the "Name" field containing "Install Flash Player 7.x" and the "Description" field containing "Install Flash Player 7.x on remote machine". A mouse cursor is pointing at the "OK" button, which is highlighted with a dashed border, indicating it is about to be clicked.

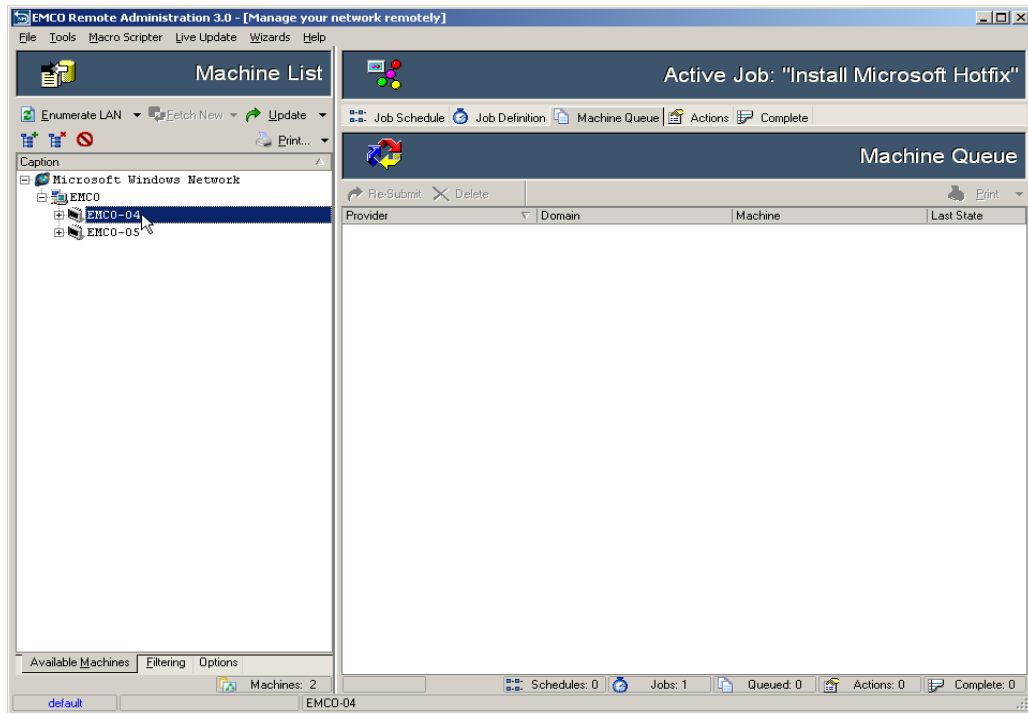

9. The added job definition will appear in the jobs list.

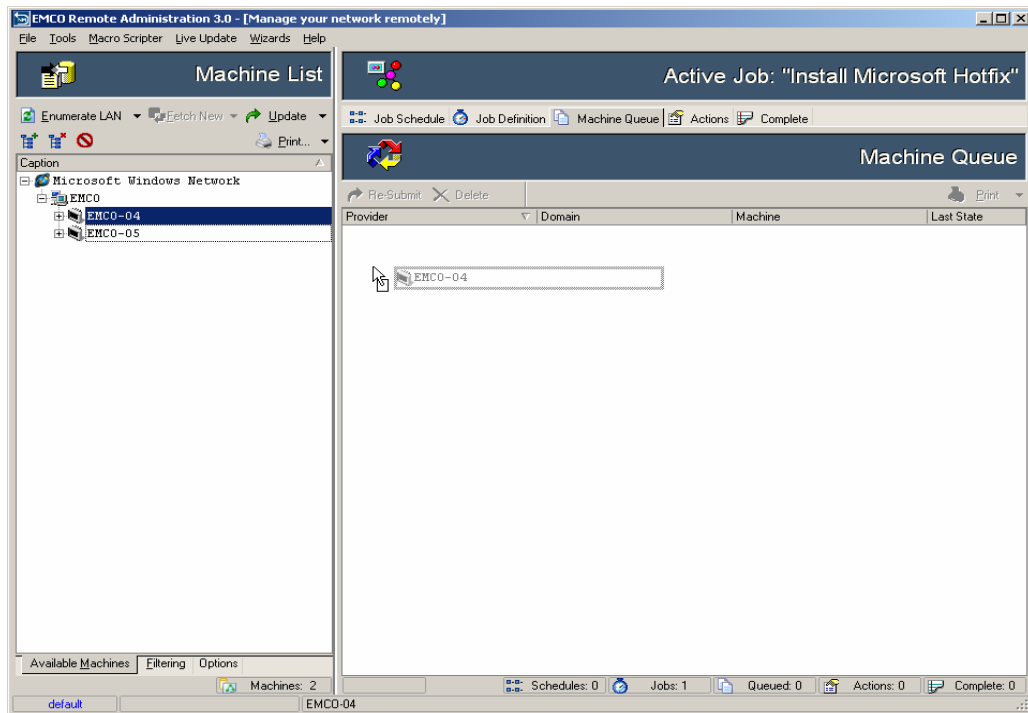

10. Switch to the **Machine Queue** tab.

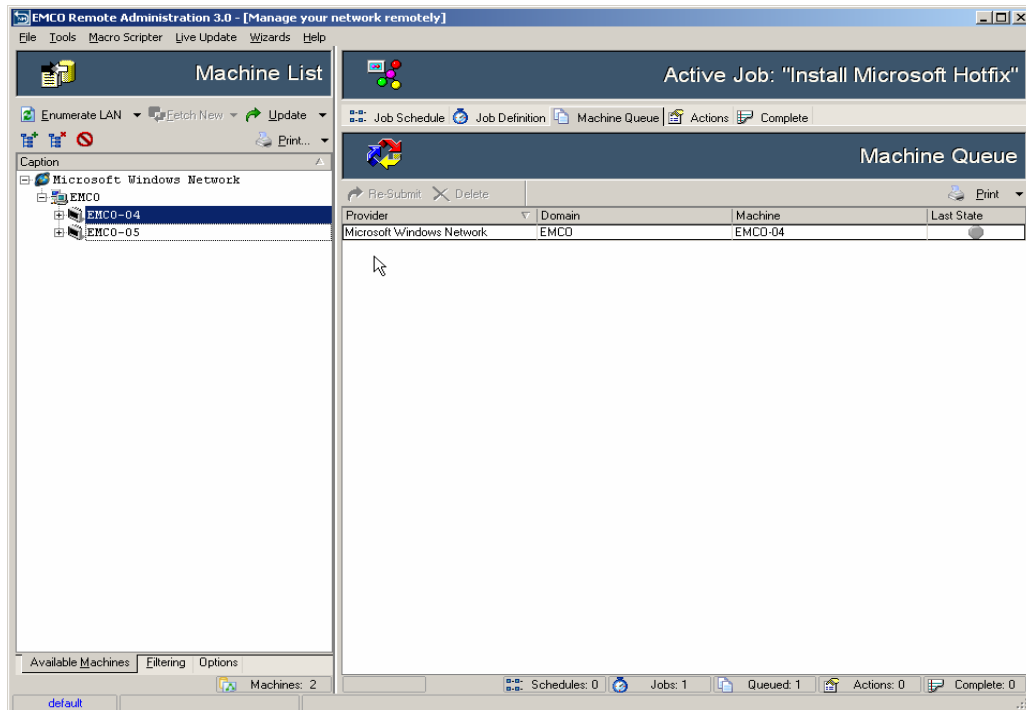

11. Press the **Ctrl** key and select the machines that you want to process.

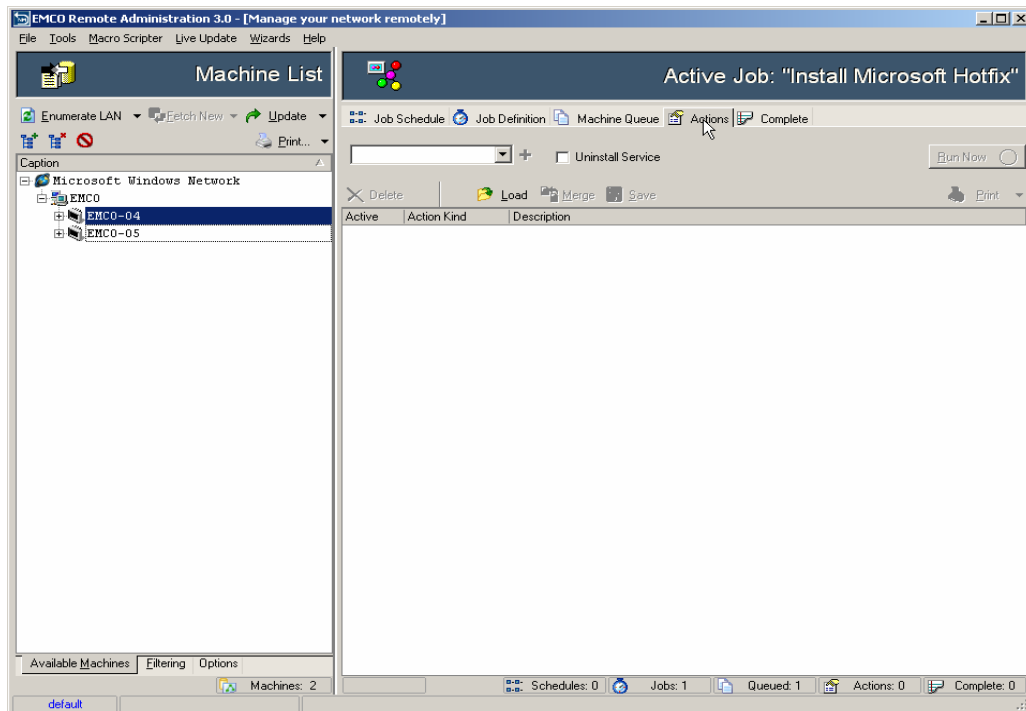

12. Click any of the selected machines, and drag it to the **Machines Queue** tab.

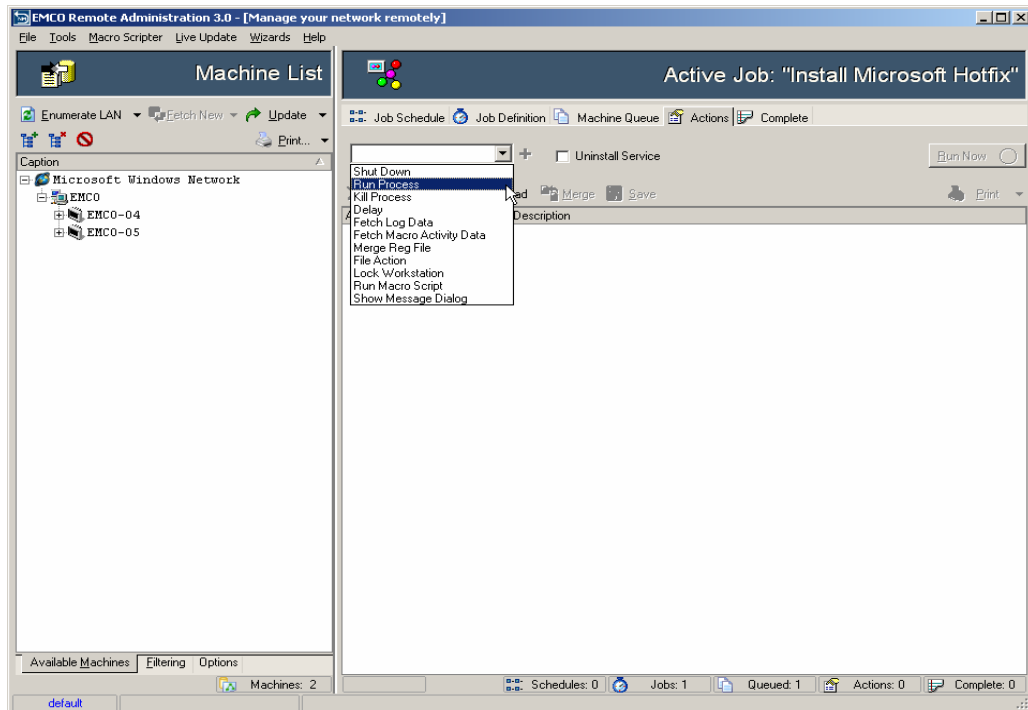

13. The selected machines will appear in the **Machines Queue** tab.

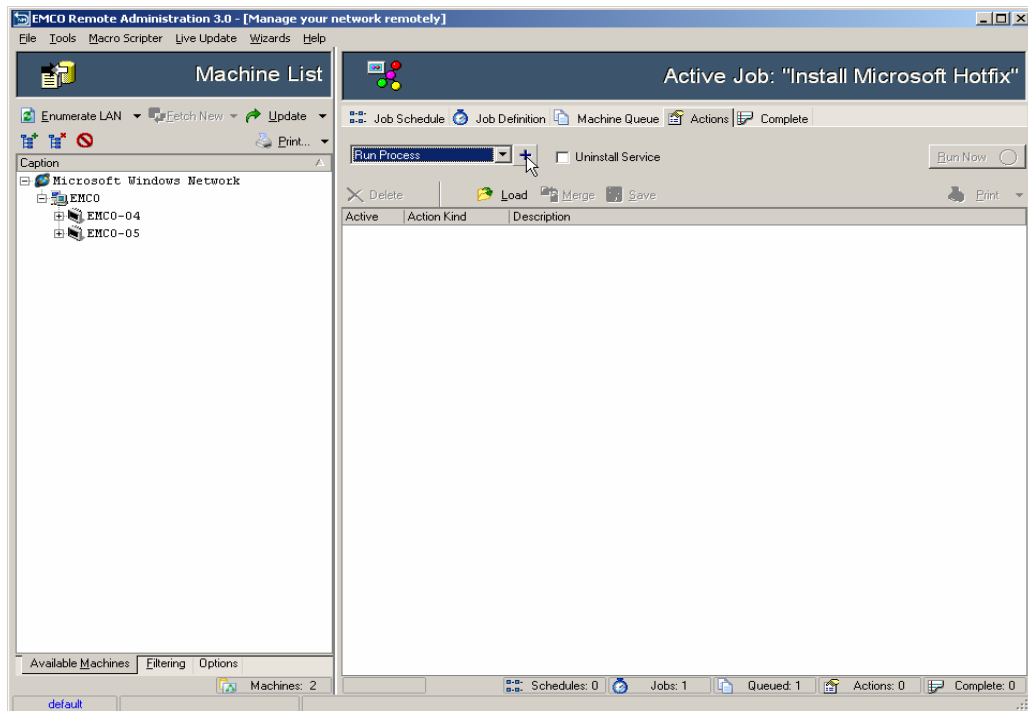

14. Switch to **Actions** Tab.

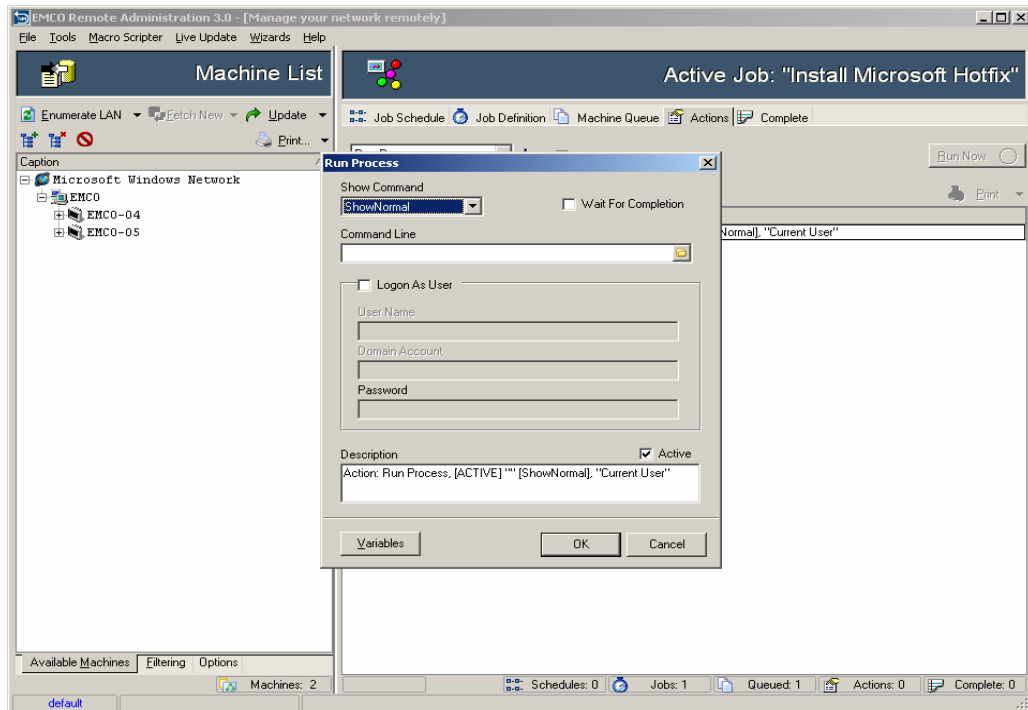

15. Select **Run Process** from the actions dropdown list.

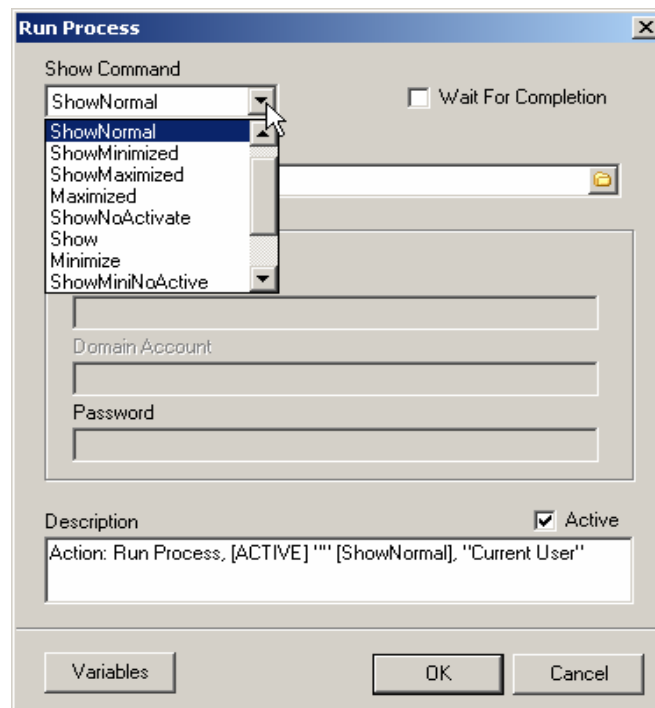

16. Click the **New Task Action** button to add a new stored task to **Action** list.

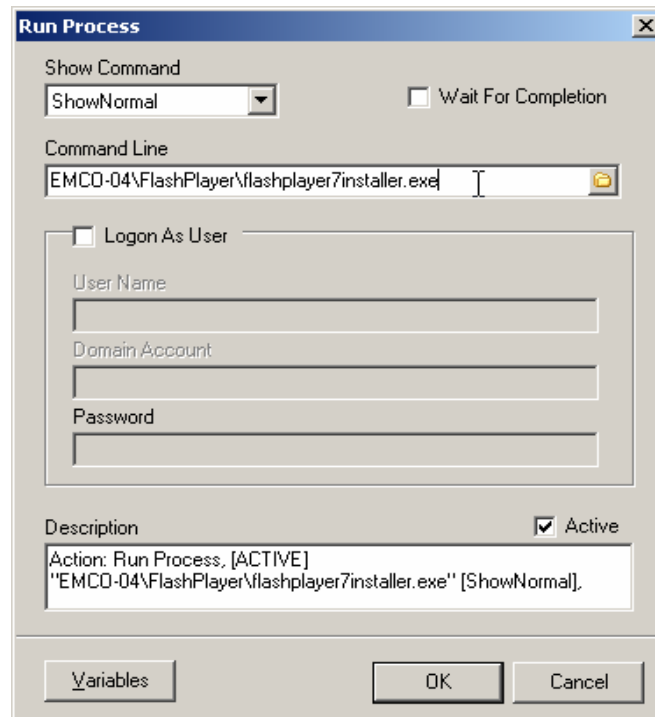

17. **Run Process** Dialog box will appear on the screen.

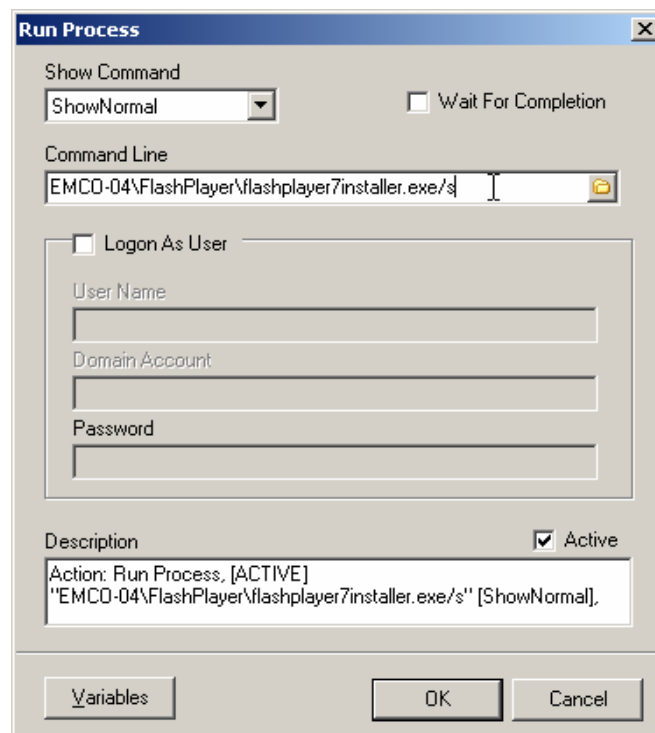

18. Select how you want to run this process.

19. Type in the command in the **Network Share\FlashPlayer\flashplayer7installer.exe** textbox.

20. Append the command with **/S** parameter.

- If you need to logon to that computer to run this process, check the **Logon As User** checkbox.
