Compare Scans in Remote Installer

To compare different scans over your machines on a network perform the following steps:

1. Expand the Entire Network node to see the list of available domains.
2. Expand the appropriate domain node to see the list of machines from this domain.
3. Select the required machine from the machines list.

The screenshot shows the EMCO Remote Installer Professional Edition interface. On the left, the 'Machine Tree' pane displays a network structure under 'Entire Network'. The 'MERCURIUS' domain is expanded, showing several machines. On the right, the 'Computer's Scans - Scan Conditions - Log' pane shows a table of scan results for the selected machine.

Machine Name	Application Name	Version	Application Comment
MERCURIUS	Acrobat.com	0.0.0	
MERCURIUS	Acrobat.com	1.1.377	
MERCURIUS	Adobe AIR	1.0.8.4990	
MERCURIUS	Adobe AIR	1.0.4990	
MERCURIUS	Adobe Reader 9	9.0.0	
MERCURIUS	EMCO MSI Package Builder Enterprise		
MERCURIUS	EMCO Network Inventory Enterprise		
MERCURIUS	EMCO Remote Administration Professional		
MERCURIUS	EMCO Remote Desktop Professional		
MERCURIUS	EMCO Remote Installer Professional		
MERCURIUS	EMCO Remote Shutdown Professional		
MERCURIUS	EMCO UnLock IT		

4. Switch to the Computer's Scans tab.
5. The available log of the scans for selected machine appears in the scans list.
6. Select the scans you want to compare from scans list.

The screenshot shows the EMCO Remote Installer - Professional Edition interface. The left pane displays the 'Machine Tree' with a hierarchical view of computers under 'Entire Network'. The right pane shows the 'Computer's Scans - Scan Conditions - Log' window, which is currently displaying the 'Scans' tab for the selected machine 'MERCURIUS'.

The 'Machine Tree' shows the following structure:

- Entire Network
 - DEV
 - DEV-PDC
 - W2003-X86
 - WNT-SP6-MKII
 - WXPPRO-X64-SP2
 - WXPPRO-X86-SP1
 - DREAMLIGHT
 - DREAMLIGHT-PDC
 - MERCURIUS
 - W2000-SP4
 - WXPPRO-X64-SP1
 - EMCO
 - EMCO-PDC
 - W2003-X86-SP1
 - W2008-X64-SP1
 - WVISTA-X86-SP1
 - WXPPRO-X86-SP2
 - WXPPRO-X86-SP3
 - LAB
 - LAB-PDC
 - W2000-SP2
 - W2003-X64-SP1
 - W2008-X86-SP1
 - TYRONE
 - TYRONE-PDC
 - WNT-SP6

The 'Computer's Scans - Scan Conditions - Log' window shows the following table of scans for the selected machine 'MERCURIUS':

Machine Name	Application Name	Version	Application Comment
MERCURIUS	Acrobat.com	0.0.0	
MERCURIUS	Acrobat.com	1.1.377	
MERCURIUS	Adobe AIR	1.0.8.4990	
MERCURIUS	Adobe AIR	1.0.4990	
MERCURIUS	Adobe Reader 9	9.0.0	
MERCURIUS	EMCO MSI Package Builder Enterprise		
MERCURIUS	EMCO MSI Package Builder Professional		
MERCURIUS	EMCO Network Inventory Enterprise		
MERCURIUS	EMCO Remote Administration Professional		
MERCURIUS	EMCO Remote Desktop Professional		
MERCURIUS	EMCO Remote Installer Professional		
MERCURIUS	EMCO Remote Screenshot 2x		

7. Click Compare Scans button shown on the topright corner of the Computer's Scans tab.

The screenshot shows the EMCO Remote Installer Professional Edition interface. The left pane displays a 'Machine Tree' with a hierarchy of computers including DEV, DREAMLIGHT, EMCO, LAB, and TYRONE. The right pane is titled 'Computer's Scans - Scan Conditions - Log' and shows a 'Scans' tab with a 'Current Scan' dated 2008.11.03 15:47:29. Below this is a table of installed applications on the selected machine (MERCURIUS).

Machine Name	Application Name	Version	Application Comment
MERCURIUS	Acrobat.com	0.0.0	
MERCURIUS	Acrobat.com	1.1.377	
MERCURIUS	Adobe AIR	1.0.8.4990	
MERCURIUS	Adobe AIR	1.0.4990	
MERCURIUS	Adobe Reader 9	9.0.0	
MERCURIUS	EMCO MSI Package Builder Enterprise		
MERCURIUS	EMCO MSI Package Builder Professional		
MERCURIUS	EMCO Network Inventory Enterprise		
MERCURIUS	EMCO Remote Administration Professional		
MERCURIUS	EMCO Remote Desktop Professional		
MERCURIUS	EMCO Remote Installer Professional		
MERCURIUS	EMCO Remote Support 2x		

In the bottom right corner of the application window, the 'Compare Scans' button is highlighted with a red box.

8. The comparison results appears in the bottom part of this tab.

The screenshot shows the EMCO Remote Installer interface. On the left is a 'Machine Tree' showing a network structure with folders like 'Entire Network', 'DEV', 'DREAMLIGHT', 'EMCO', 'LAB', and 'TYRONE'. The main window is titled 'Computer's Scans - Scan Conditions - Log' and shows a table of scan results for machine 'MERCURIUS'.
