Printout Installed Applications for individual PC in NI

EMCO Network Inventory 5 allows you to print the installed applications list from selected machines.

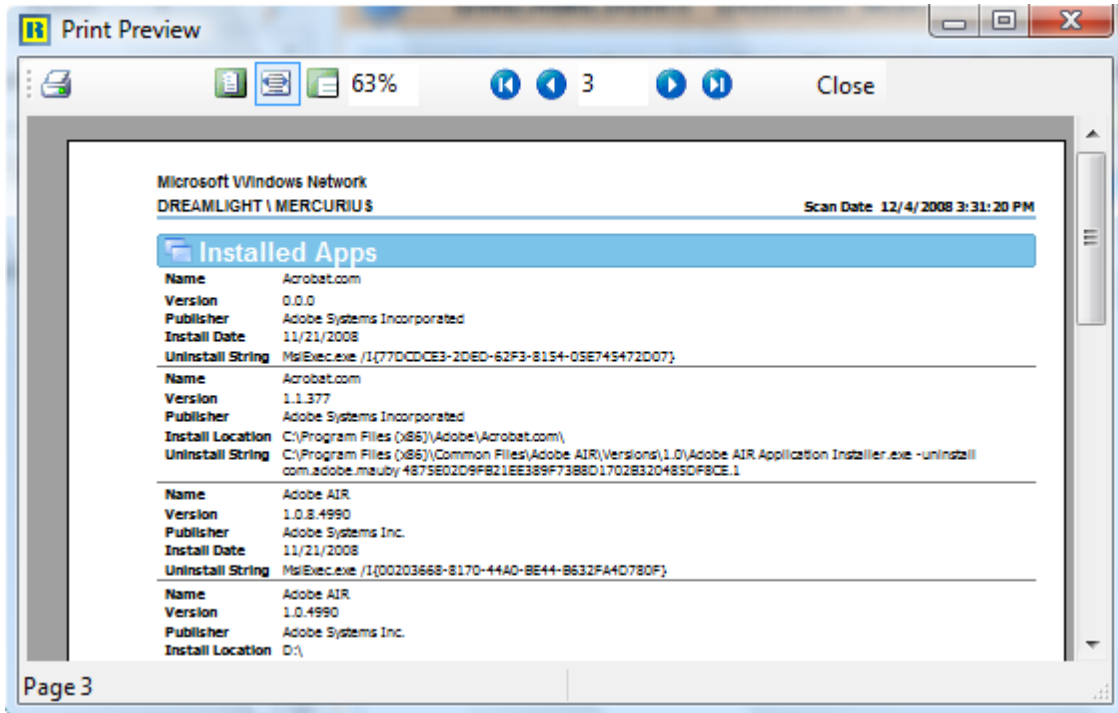

To printout the installed applications list from selected machines perform the following steps:

1. Expand the Networking node.
2. Now expand the required Network node.
3. Select the domain/workgroup that you want to operate.
4. Right click the machine you want to print the installed applications list for.
5. Select Report Selected - To Screen menu item from the pop-up menu.
6. Output Selection dialog appears on the screen.
7. Check Installed Applications check box and check the fields that you want to print.

8. Click OK button.

9. This will generate the report with selected information on your screen.

10. Click Print button to printout your report.

11. This will print your report
